

Manual

Product Name: PB025导热双面胶带

Product Specifications: 0.25mm*1060mm*20m

Product Code:

Product mix profile:

导热胶 *Thermal plastic*
玻纤 *Fiberglass*
导热胶 *Thermal plastic*
蓝膜 *Blue film*

(Material Data)

Substrate	玻纤	The end of paper	蓝膜
Substrate thickness mm	0,05	The thickness of the end of paper mm	0,08
Substrate color	white	The end of paper color	blue
On the thickness of plastic mm	0.1*2	Retention hr	48↑
Surface adhesion kg/in	0,8	Then force kg/in	□1.2
Resistance Ω		Weatherability	good
Long-term temperature °C	70	Short-term temperature °C	120
Withstanding Voltage kv/mm	□4.5	Thermal conductivity w/mk	□1.0

Features: softer surface, good thermal conductivity, conductivity, tear, fight through.

用途: LED灯具等。

测试环境: 23°C、65%
